

## GOOD REASONS TO STUDY IN MV

APPLY NOW

### Unique degree courses

You want to study the future? You're in the right place. Mecklenburg-Vorpommern's universities offer innovative and unique degree courses for several future-oriented fields – including high-tech, the environment, biology or medicine. Whether it's Aquaculture, Medical Biotechnology or Energy and Resource-Efficient Technologies – your knowledge of tomorrow's world can be found in MV!

### Maritime expertise

You're drawn to the coast? Thanks to their geographic locations, the universities in Mecklenburg-Vorpommern are brilliantly suited for research related to the sea. Various degree courses such as Baltic Management Studies or Operation and Management of Maritime Systems train experts for future careers in maritime fields.

### Multicultural campuses

You want to find new friends? Of course. Students from all over the globe study at Mecklenburg-Vorpommern's universities. Young adults from more than 100 nations and all over Germany come here to study.

### Good supervision

You would like close contact to members of the teaching staff? No problem. Our universities have one professor for every 50 students. That puts Mecklenburg-Vorpommern in pole position in the national ranking.

### Modern equipment

You wish to work with state-of-the-art technology? The universities are equipped with cutting-edge technology, which when combined with the high standards of teaching, create ideal surroundings for future experts.

## UNIVERSITY OF APPLIED SCIENCES GÜSTROW

UAS Güstrow is the federal state's university of applied sciences for future public-sector employees, providing its graduates with excellent opportunities: Having gained degrees in the fields of public administration, law enforcement or administration of justice, nearly all of them will be taken on by one of the federal state's authorities. The practical study periods make it possible to get to know more about the future field of profession during studies. The short distances on campus apply not only to the physical distances between the dorms and lecture halls, library or modern police training facilities, but also to the accessibility of teaching staff. The relaxed atmosphere and excellent student supervision contribute to the high success rate at the end of studies.

## UNIVERSITY OF APPLIED SCIENCES NEUBRANDENBURG

Nature, health, nutrition: UAS Neubrandenburg teaches and investigates defining features of Mecklenburg-Vorpommern in unique practice-oriented degree courses such as Food Technology, Geoinformatics and Early Education, which are complemented by an excellent student-staff ratio and modern equipment. Cross-disciplinary work facilitates solutions to problems and broaden the horizon of individual disciplines. Professors and students know and greet each other on the campus and work together hand in hand. Students appreciate the short distances, the close vicinity to Neubrandenburg's town centre and the picturesque rural surroundings. They meet up on their stand-up paddles on nearby Lake Tollense or at the water-skiing park on Lake Reitbahn.

## UNIVERSITY OF APPLIED SCIENCES STRALSUND

UAS Stralsund has its roots in electrical and mechanical engineering, computer sciences, and business studies, providing a unique range of study opportunities such as Motorsport Engineering, Leisure & Tourism Management, Renewable Energy or IT Security and Mobile Systems. The young and innovative campus-university attracts students with its modern equipment, excellent student-staff ratio and top position in rankings. The UAS cooperates with numerous regional and international businesses, maintaining a large network of partners all over the world. As studying is a big deal, but not everything, the campus provides various leisure activities. Last but not least, the nearest sandy beach with a view to Rügen, Germany's largest island, is just a five-minute walk from campus.

## UNIVERSITY OF ROSTOCK

The University of Rostock was founded in 1419, and thus is the oldest university in the Baltic Sea region, which functioned as a location for learning and research more than 70 years before Columbus discovered America! The history lends weight and credibility of tradition whilst various modern buildings, including the new campus for engineering and natural sciences, the library and the Mensa (cafeteria) reflect the university's flair for innovation. The University of Rostock offers an unusually broad range of subjects, from agricultural and environmental sciences, engineering/computer sciences, mathematics/natural sciences, medicine/life sciences, languages/humanities, economics/social sciences to law and teacher training. The university regularly places well in national rankings, and with approximately 14,000 students there is a vibrant atmosphere in Rostock – the city by the sea.

TRADITIO ET INNOVATIO

## ROSTOCK UNIVERSITY OF MUSIC AND DRAMA

Music, singing, acting, teacher-training for music and drama – there is a wide variety of artistic and teaching degree courses on offer at the Rostock University of Music and Drama (hmt). hmt is particularly popular due to good student supervision and the many opportunities given to students to perform on stage. Partnerships with theatre companies, orchestras and schools make it possible for students to gain extensive practical experience from the very beginning. hmt students amaze and enthrall their audiences over and over again at more than 300 annual events. The atmospheric and inspiring ambience of the university complex that was once a Franciscan monastery provides a perfect setting.

STUDY SUCCESSFULLY.

## UNIVERSITY OF GREIFSWALD

Teaching and research at the University of Greifswald date back more than 560 years. The University remains conscious of its history, but has now evolved into a modern, internationally-oriented research university with five faculties. Health and prevention, environment and climate, energy and raw materials, and the opportunities and risks of globalisation are at the centre of academic interest. Lots of young adults from all over Germany and more than 90 countries worldwide study more than 100 degree courses. Greifswald is one of Germany's youngest towns and benefits from its position right next to the Baltic Sea and its maritime atmosphere. Greifswald is a town of short distances and known throughout Germany as a cycling town, where you can get from A to B in the blink of an eye.

## UNIVERSITY OF APPLIED SCIENCES WISMAR

Strong ties to scientific and business partners, practice-oriented, family-friendly: UAS Wismar profits from its networking events, practice-oriented courses and the nearby childcare facilities. Wismar's students learn just how closely related design, technology and business are. The university is not far from the historic Old Town, which was added to UNESCO's list of world heritage sites in 2002. But not only fans of Brick Gothic architecture will be impressed by Wismar. The big attraction in summer is of course the Baltic Sea; furthermore, dedicated students put on the annual 'CampusOpenAir Wismar' to kick off the winter semester in style.
